EDUCATION

LADOKE AKINTOLA
UNIVERSITY OF
TECHNOLOGY

Bachelor of Technology
Major in Biochemistry

Ogbomoso, NG
Jun 2024

WORK EXPERIENCE

Corporate

Lagos, Nigeria

Frontend developer

Aug 2025 – Jan 2026

- Engineered responsive booking flow UI enabling users to seamlessly reserve turf sessions across mobile and desktop, reducing drop-off points in the core conversion journey
- Built match scheduling interfaces that streamlined session organization for players and turf managers, improving operational clarity across the platform
- Ensured full cross-device responsiveness across all developed features, delivering a consistent, polished experience on mobile — the platform's primary access point

PROJECTS

KICKABOUT — FULL-STACK WEB APPLICATION — 2024

• [React](#) • [Next.js](#) • [Node.js](#) • [Express](#) • [MongoDB](#) • [Python](#)

- Built a 5-a-side football scheduling platform enabling users to create, join, and manage games with real-time availability.
- Implemented skill-based team distribution logic using a weighted scoring algorithm to ensure balanced and fair team formation.
- Integrated location and map APIs to surface nearby games, with geospatial data processed and filtered server-side.
- Architected the MongoDB schema with full authentication, access control, and data persistence across sessions.

OWNTHEFIT — SOCIAL COMMERCE PLATFORM — 2024

• [React](#) • [Next.js](#) • [Node.js](#) • [MongoDB](#) • [Paystack](#)

- Built a hybrid social media and e-commerce platform connecting street-wear designers with their target audience through profiles, product listings, and a social feed.
- Designed and queried MongoDB collections for users, products, and transactions — applying aggregation pipelines to surface sales trends and top-performing listings.
- Integrated Paystack payment API with full transaction integrity validation and reconciliation logic.
- Developed both front-end and back-end independently, with a focus on responsive design and mobile-first layouts.

OAKEN — FURNITURE E-COMMERCE WEBSITE — 2024

Front-end Project • [React](#) • [Next.js](#) • [Tailwind CSS](#) • [GSAP](#)

- Developed a fully responsive furniture e-commerce website with modern UI layouts, smooth scroll animations, and optimized product browsing.
- Built reusable component library covering product cards, filters, and cart logic with clean, typed TypeScript interfaces.
- Implemented advanced GSAP animation sequences including scroll-triggered reveals and staggered entrance effects for a premium feel.

SKILLS AND TECHNOLOGIES

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, GSAP

Backend: Node.js, Express.js, MongoDB, Firebase, REST APIs

State: Zustand, Redux

Tooling: Jest, Git, Vercel, Postman

Other: Responsive Design, UI Animation, Accessibility, Technical Writing
